# SYNOPSIS

**The band are all now superhuman. Their powers have now advanced and Earth has developed into the Heaven they all once had to fight for. Even the Devil is at peace with the world.**

**Space is in the process of developing his new scientific projects, when the aliens communicate with him. They all then decide to go on a mission to find Jesus, who can show them how to use his secret powers.**

**However, Space's theories of design and Space continuum do not quite work out and the Space ship that he has built goes out of control.**

**Eventually they land in an old town which turns out to be Jerusalem. They find a bunch of hippies and one of them decides to help them in their mission.**

**As the Romans begin to attack the crew retreat back to the star ship, but before they manage to lift off, the aliens reveal that the man with them is Jesus, and that it was all a plot to steal his power.**

**The aliens are knocked out and the crew prepare to leave. However, Jesus decides not to go with them, and to fulfil his prophesy. Before leaving, Jesus finally reveals his sacred power. He then walks off and is seized by the Romans. The crew head back for home.**

**The next day they all wake up at their parents, and Space's parents are furious. The Devil then jumps in threatening to steal the secret power, but he can't because it is not theirs to steal.**
